# Forward looking statements

This document may contain certain forward-looking statements relating to L&G, its plans and its current goals and expectations relating to future financial condition, performance and results. By their nature, forward-looking statements involve uncertainty because they relate to future events and circumstances which are beyond L&G's control, including, among others, UK domestic and global economic and business conditions, market related risks such as fluctuations in interest rates and exchange rates, the policies and actions of regulatory and Governmental authorities, the impact of competition, the timing impact of these events and other uncertainties of future acquisitions or combinations within relevant industries. As a result L&G's actual future condition, performance and results may differ materially from the plans, goals and expectations set out in these forward-looking statements and persons reading this document should not place reliance on forward-looking statements. These forward-looking statements are made only as at the date on which such statements are made and Legal & General Group Plc does not undertake to update forward-looking statements contained in this document or any other forward-looking statement it may make.

Other	7	5
<b>Operating Profit</b>	<b>1,105</b>	<b>1,028</b>
<b>Annuity Portfolio Assets</b>	<b>73.8</b>	<b>68.9</b>

## Predictable and reliable growth in operating profit:

- Operating profit up 7% to £1,105m.
- Release of CSM into profits has increased to 7.0%, reflecting the maturing back book and a higher interest rate environment.
- RA release reflects the growth of the annuity book from new business.
- The expected investment margin is stable at £485m as we continue to see good performance in our annuity portfolio, and our continuing back-book optimisation.

# Capital light UK PRT

	FY 2024	FY 2023
SII Capital deployed	£81m	£278m
New Business Strain	1.0%	2.3%

## We adapted quickly to new market environments:

- £8.4bn of capital efficient new business with a c.1% strain in the UK.
- c. £200m lower capital deployed than in 2023 on writing similar volumes post funded reinsurance.
- The lower capital deployed supports an incremental buyback.
- This approach delivers highly attractive returns on capital, with scope for further back book asset optimisation not reflected in the margins.
- Day one profitability metrics are moderately lower due to the lower initial yield with:
  - Overall PRT volumes<sup>1</sup>, delivered IFRS new business margin<sup>2</sup> of 7.1 % (FY 2023: 9%)
  - UK PRT Solvency II margin of 5.3% (FY 2023: 7.4%)

1. UK + International PRT.

2. Calculated as a percentage of premium net of funded reinsurance. Includes transacted annuity book optimisation from Direct Investment capacity enabled by gilts-based investment strategies and removes timing constraints on reinsurance imposed by IFRS17.

# Asset Management

<b>Financial Highlights (£m)</b>	<b>2024</b>	<b>2023</b>
Asset management revenue	967	926
Asset management expenses	(711)	(658)
<b>Operating profit from fee earning AUM</b>	<b>256</b>	<b>268</b>

<b>Total AUM<sup>1</sup> (£bn)</b>	<b>1,118</b>	<b>1,159</b>
of which International AUM	488	465
of which UK DC AUM	183	163

## We grew fee revenue despite lower average AUM:

- Up 4% to £967m as we pivot towards higher margin business.
- Positive flows in DC, Private Markets and Wholesale were offset by outflows in lower margin UK DB. Annualised Net New Revenue (ANNR) excluding UK DB channel is £17.4m.

## Balance Sheet investments :

- Lower operating profit from our Balance Sheet investments primarily reflects a more modest valuation uplift for Pemberton in 2024, as it continues to grow.
- In the year, Pemberton increased total commitments €6bn, with €1bn from the newly launched NAV Strategic Financing strategy.

## Our international footprint is expanding:

- Represents 44% over Global AUM<sup>1</sup> (FY 2023: 40%). International AUM is at £488bn, with strong growth in Europe and Asia.

## Our UK DC AUM is up 12%:

- We continue to be the market leader in UK DC with £183bn of AUM, with £94bn AUM from our own Workplace DC.

1. Total AUM ex JV, associates and other.  
2. Workplace Assets Under Administration include Workplace DC and Retail Savings AUA.

<b>Workplace DC AUM (£bn)</b>	<b>94</b>	<b>80</b>

1. Represents the new business CSM and RA.
2. Closing CSM pre-release.

## Retail operating profit is up 12% to £504m driven by:

- CSM and RA release up 6% to £553m driven by profitable new business written in 2023.
- 9.1% of CSM<sup>2</sup> was released into profit.
- Favourable experience variance with improvements in both the US and UK protection.
- Non-attributable expenses of £(136)m, reflecting a now higher run rate than 2023.

## New business profitability increased:

- Solvency II and IFRS New business value up 22% and 13% respectively, with growth in individual annuities and UK protection.

## Continued growth in Workplace DC

- Workplace DC AUM of £94bn, up 17%, with net flows of £6bn.
